I strongly oppose the erection of a new 30-meter mast on land north of Leylands Road, Burgess Hill, for the following reasons:

Proximity of the tower to residential properties and overbearing impact on the local area.

Concerns about the electromagnetic emissions from the tower on the health of residents.

I have noticed a significant decline in the numbers of wildlife in the local area over the years I have lived here, and this tower will have a major impact on wildlife and ecosystems.

Minimal consultation with surrounding neighbourhood.

Impact on the value of properties.
