Concerning the re-application at this site..

I would ask if you or the council have been made fully aware /researched the amount of wildlife within 1km radius of this site -that will no doubt be disturbed & impacted.

I believe anyone can ask for this information

Sussex Biodiversity Record Centre search in a 1km radius around the site (anyone can do this, by logging a request here: <https://sxbrc.org.uk/services/dataRequests.php>).

I cannot share the report but would ask if this information can also be brought before the council to consider before any decision is made. 190 species were recorded...this is a very rich area for important wildlife corridors that I believe we cannot afford to lose.

Yours sincerely
