Good afternoon Joseph,

I hope you are doing well, it took us some time, but Southern Water have responded to your below comments relating to application **DM/25/0801**.

Are you satisfied that this addresses the comments below to allow the application to be approved? Please let me know.

Kind regards,

Giles Barton

Subject: RE: DM/25/0801

Good afternoon Giles,

Following the submission of the additional information I have received the following response from the Councils Drainage Consultant:

Please see our comments below regarding DM/25/0801:

Further information has been supplied by the applicant, however please note the strategy may need to be amended based on Condition 5, therefore we will review the additional information after the capacity check has been received.

No sewage capacity check has been provided as part of the additional information. The applicant still needs to provide confirmation that there is sufficient capacity at the proposed discharge location from the sewage provider and any other relevant stakeholders.

The applicant is advised to review and update the layout and calculations to ensure consistency of information between the two documents

As you can see from their comments they are still requiring some additional information.

This information can be emailed to me directly.

I trust the above is of some assistance.

Kind regards

Good morning Joseph,

I hope all is well with you, it has been some time.

We liaised with Southern Water/LLFA and have now updated the drainage information. This should hopefully be acceptable to allow approval of the application. Please see attached the relevant updated documents following comments, I have attached LLFA comments which is what we have designed to for your information.

Please let me know if this is acceptable to allow to be discharged.

Kind regards,

Giles Barton

Good morning Giles,

Thank you for your email and apologies for the delay.

As per the attached I have now received the Drainage Officers comments.

However, unfortunately as you can see following a review, they now have concerns with the potential capacity of the existing system. Please can you provide additional information to confirm that there is capacity.

This additional information can be emailed to me directly.

Hi Joseph,

Please find attached the updated information that should address the comments for condition 4. Our consultant has also stated the below regarding flow control.

“To combat the 2.1l/s we have reduced our flow control to a maximum discharge rate of 1.9l/s. This limits the overall discharge to 2.0l/s (the reason for this is a slight issue with the modelling software).”

I hope this is clear and addresses all queries raised by the council.

Kind regards,

Good afternoon Joseph,

I hope you are doing well, I have now received answers to your comments in the below email.

Condition 4 (Foul and Surface Water Drainage)

Attached are updated calculations and drainage drawings which should address comments for condition 4.

Condition 5 (Drainage Connection)

Regarding condition 5 our consultant has previously contacted Southern Water about the proposed connections and the relevant correspondence is attached. If the attached is satisfactory for condition 5 would the relevant documents attached make up a discharge condition application?

Please let me know your thoughts on the above and I hope this addresses the comments.

Dear Mr Barton,

RE: Discharge of condition no 4 relating to planning application DM/23/0026.

AT: Land At St James Road, East Grinstead, West Sussex

REFERENCE: DM/25/0801

In relation to the above mentioned application I have received the attached comments from the Drainage Team.

As you will see from these comments some additional information is required in relation to condition 4, furthermore, they have advised that you would also need to submit the application to discharge condition 5.

This additional information can be emailed to me directly.

Kind regards
