Re: planning application DM/26/1265 38, Savill Rd.

I beg you to seriously review this retrospective application, in particular in regard to front extension which is an eye-sore and totally out of place. The black two-storey construction over the garage is totally alien to the surrounding buildings and ought to be removed forthwith. I hope the owners will realise that we have planning laws for a purpose, if they chose to live in a well established area of Lindfield then any extension should be more in keeping with other houses.
