TPO Details

Further Details	
Are you seeking consent for works to tree(s) subject to TPO	Yes
Are you wishing to carry out works to tree(s) in a conservation area?	No
If you know which TPO protects the tree (s), enter its title or number	WP/04/TPO/88
Please identify the tree(s) and provide a full and clear specification of the works you want to carry out	Silver Birch - Located along right side of property. Bifurcated stem with smaller stem leaning out toward clients property. Larger stem has been acoustically tested and showing signs of decay. Given the nature of Silver Birches I have advised my client to fell the tree leaving a 6 metre stump for habitat usage and bird box etc. Permission request to fell as it will only be a matter of time before it falls into the house. Photos available.
	Silver Birch - Located at the side of the driveway. Height 30 Mts, Age 40 estimated years. This tree is well aged and I have advised my client to fell to a height of 9 Metres leaving a habitat stack for wildlife and a feature of the estate.
	Western Hemlock - Right hand side of property on Southern Boundary. 30Mts Height reducing to a height of 14mts to allow light to top floor of property.
	2 x Red Alders on Southern boundary beside house, Fell to 6 Metre stump for habitat and wildlife. (I believe my client was advised by a local tree officer that this would be ok given the location and distance from the main property.

Additional Information

ADDITIONALINFORMATION	
For all trees	
Sketch plan clearly showing the position of trees listed in the previous question	Woodland House, Cuttinglye Road.pdf (download)

For works to trees covered by TPO	
Please provide a reason why you wish to perform these works	T1 / T2 - Red Alders, Tree Officer has been to site and mentioned that this would be ok, but we would prefer to double check and apply in the case that it wasn't acceptable. T3 Silver Birch - Silver birch fell due to potential uprooting and the tree being unstable so close to my clients property. T4 - Silver Birch - Fell due to age of tree and being unstable. Tree officer said this would be acceptable when visiting. T5 - Western Hemlock, Reduce in height by 10 Mts to allow more light to property.
Condition of the trees(s)	Yes
Advice/Diagnostics	
Alleged damage to property	No
Report/Evidence	
Are you providing separate information?	No
Please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application.
