Comments Details

Commenter Type: Neighbour or general public

Stance: Customer made comments in support of the Planning Application

Reasons for comment:

Comments: Please allow this planning submission to pass. The changes are to make the building more accessible to users and visitors to the space including a changing places toilet and a working lift. My family has been involved in local youth and play groups for disabled children & our families over ten years, with my son active in many groups who may want to use the space but would not be

able too if their disabled families (especially young people and parents who rely on wheelchairs to access community activities) can not access all parts of the building. It is essential that all new buildings and updates to existing community assets make our community feel welcome and included.

Kind regards
