Dear Katherine,

I have re looked at the panels on the roof and amended the two drawings, which are attached as a revision A's.

To confirm, the panels on the larger slope will be the same as the panels on the smaller slope, so they will not be visible from the rear external view now. I have also shown the panels in profile on the side elevations, but the panels will not be visible from ground level either.

I look forward to hearing from you.

Regards,

Dear Jenny,

I am writing with regards to the above applications, for which I am now the case officer for.

It is noted that the proposed solar panels are not present on the proposed elevation plan and should be included on the side elevations as well as the proposed rear elevation plan, as some of the panels on the larger rear roofslope would be visible beyond the smaller rear roofslope.

Kind Regards
