(T1) Oak - Crown reduce by 2m to suitable growth points and remove dead wood
Sandra Thomson**

Permission is sought for the works as described.

The tree is located within the garden of a corner property. It has high visibility, due to its location, and is a mature specimen which has previously been reduced, mainly to address issues such as roof and pavement overhang.

Works relate to secondary growth only and will not unduly impact on the long term health or amenity value of the tree.

Permission is recommended.

Decision: Permission
