Pharola DS

Slim design

At just 89mm in diameter, Pharola DS is part of possibly the slimmest family of bollards on the market while continuing to provide a high quality of light and sturdy, robust housing.

Versatile architectural bollard

Pharola is a high-performing white light luminaire, aiding navigation and promoting a feeling of safety with zero light above the horizontal that seamlessly integrates into any architectural landscape.

Mounting

Pharola DS can be installed via root mounting or flange plate at a height of 1000mm or 2200mm, making it a versatile and virtually maintenance-free luminaire suitable when integrated into any location.

DarkSky approved

Pharola DS has been approved by the International Dark-Sky Association, providing a 0% upward light output ratio benefitting the surrounding environment, flora and fauna.
