[REDACTED]

Good afternoon Ms Fisher

I wonder if I can add to the comments already made about the above, pending planning application?

I agree with the comments of my neighbours. My prime concern is about the increased numbers of vehicles (associated with the building works and residents/visitors) accessing from both entrances/exits, with the inherent risks presently with vehicles travelling at times in excess of 60 mph on Ardingly Road, which adjoins Park Lane.

I would welcome a clear safety strategy and reduction in the speed limit before any works are started, if the plans for redevelopment are approved.

A fatal car crash occurred in November 2024, within meters of the entrance to Hollyrood. There would be a heightened risk of a collision if the speed limit is not reduced before large vehicles start to access the grounds.

Please could you share this email with the relevant bodies.

Many thanks
