Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

Overview

Sleeping Quarters

The manufacture, supply and installation of self-contained animal housing for outdoor use, using a prefabricated PVCu system. The building will consist of an insulated indoor sleeping area, a covered outside exercise area and a common security porch or corridor

Sleeping Quarters are fully enclosed and insulated with access via a secure door. The access door comprises a solid insulated panel with an integrated locking cat flap on the lower part toughened Double Glazing to the upper part. The door is secured with Sash Guards at waist height inside and out and features a 'step over' threshold as standard.

A sliding Hit & Miss Ventilator to the rear wall of the Sleeping Quarters regulates airflow into the room. Every sleeping quarters includes a fixed, raised sleeping to shelf to one side that has a wipe-clean surface.

Exercise Runs have solid walls on each side, an insulated roof and a full-height PawSafe Mesh™ front. External sides of each block have insulated panel on the lower sections and toughened Double Glazing to the upper. Dividing walls between Exercise Runs (Sneeze Barriers) contain insulated panel on the lower sections and either opaque panel or Toughened Safety Glass to the upper sections.

The Exercise Run access door contains PawSafe Mesh™ which is specially manufactured to reduce the risk of injury to animals. The door is secured with Sash Guards at waist height inside and out. Sash Guards can be locked with an optional Sash Guard Lock.

A common Security Corridor (or Porch) provides a double-entry system to each pen. This ensures there are at least two doors between each cat and the outside. The standard corridor width is 1m wide and runs the length of the building.

Entry to the Security Corridor is via a Multipoint, key-locking door, positioned either along the front or the side of the building. The front of the building comprises Toughened Safety Glass to waist-height with PawSafe Mesh™ above.

The front of the building is designed to allow cats access to outside fresh air at all times.

Base: A raised concrete base is required to install the buildings on top of. It should have a damp-proof membrane and finish approximately 75mm (3in) above ground level. The base should have a smooth and even finish. A fall from the rear towards the front of 1:80 is recommended. We provide the required dimensions which must be followed exactly: base sizes are critical.

The floor covering can be fitted before or after installation. Tiles are recommended.

The clearance under our doors is 20mm.

A local electrician will be required to provide a certified supply to the building and to connect lighting and heating. We can provide specialist Pet Cassette heaters that are designed for use with our pens or you can source your own method of heating. Our heaters are supplied boxed with an unterminated flex and should be installed by a qualified electrician.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No

Ownership Certificates and Agricultural Land Declaration

Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)

Please answer the following questions to determine which Certificate of Ownership you need to complete: A, B, C or D.
