Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

The proposal comprises a single storey field shelter on land adjacent to, and subordinate to, The Old Lodge. The proposal also comprises the addition of native hedging and trees around the proposed shelter and boundary.

The proposed field shelter is 6.6m in length and 5.8m in depth and the ridge height of 5.3m is less than the main house.

Has the work or change of use already started?

- ☐ Yes
- ☒ No

Existing Use

Please describe the current use of the site

The current site is amenity land and currently not used for any specific purpose. It is adjoined to the main dwelling and does need regular maintenance and thus the need for the field shelter in order to store all the required equipment of significant size and value.

Is the site currently vacant?

- ☒ Yes
☐ No

If Yes, please describe the last use of the site

Same as above

When did this use end (if known)?

dd/mm/yyyy

Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated

- ☐ Yes
☒ No

Land where contamination is suspected for all or part of the site

- ☐ Yes
☒ No

A proposed use that would be particularly vulnerable to the presence of contamination

- ☐ Yes
☒ No

Materials

Does the proposed development require any materials to be used externally?

- ☒ Yes
☐ No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:

Boundary treatments (e.g. fences, walls)

Existing materials and finishes:

• 400 linear metres of fencing • 400 linear metres of hedging • 65 linear metres of ditches

Proposed materials and finishes:

Additional native hedging along the main highway of Ditton place, additional trees and hedging surrounding the proposed field shelter in order to soften the view for the neighbours as well as mature hedging to be implemented across the boundary line separating the site from the field adjacent again taking into consideration neighbours views after discussing as such.

Type:

Doors

Existing materials and finishes:

Proposed materials and finishes:

Timber hung doors which will be Cedar cladded to remove the domestic look of a garage as requested in the previous refusal DM/24/0164

Type:

Roof

Existing materials and finishes:

Proposed materials and finishes:

Clay tiles to match main adjoining dwelling.

Type:

Walls

Existing materials and finishes:

Proposed materials and finishes:

Brick walls with Timber frame, timber cladding with cedar wood face cladding to match the main dwelling and remain innkeeping. Please see supporting documentation for more detail.

Trees and Hedges

Are there trees or hedges on the proposed development site?

- ☒ Yes
☐ No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character?

- ☒ Yes
☐ No

If Yes to either or both of the above, you may need to provide a full tree survey, at the discretion of the local planning authority. If a tree survey is required, this and the accompanying plan should be submitted alongside the application. The local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'.

Assessment of Flood Risk

Is the site within an area at risk of flooding? (Check the location on the Government's [Flood map for planning](#). You should also refer to national [standing advice](#) and your local planning authority requirements for information as necessary.)

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- ☐ Yes, on the development site
- ☐ Yes, on land adjacent to or near the proposed development
- ☒ No

b) Designated sites, important habitats or other biodiversity features

- ☐ Yes, on the development site
- ☐ Yes, on land adjacent to or near the proposed development
- ☒ No

c) Features of geological conservation importance

- ☐ Yes, on the development site
- ☐ Yes, on land adjacent to or near the proposed development
- ☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☒ Yes
- ☐ No

Based on your site details, you are likely eligible to [use our partner's online tool to create the metric sheet and all information and supporting documents and plans you need to comply with biodiversity net gain, including the metric sheet.](#) Estimated time to complete is 45 minutes.

The proposal seeks to site a field shelter within land adjacent to the existing dwelling. Whilst it would have been preferable for the building to be sited within the curtilage of the dwelling house it is recognised that this space is restricted. The submitted plans show that the building would therefore be sited to the western side of the dwelling, within the field, and facing the highway. The proximity of the building in relation to the house is therefore acknowledged, but also needs to be balanced with other considerations.

Filed shelters are normally simply designed buildings that have an agricultural appearance. The proposed plans show a sizable building that would cover two stories, with an external stair. It is reinforced that the size of the structure should be no larger than required and it is noted that the proposed building is larger than the building previously considered, which was suggested to be reduced in scale. Furthermore the overall appearance is of a domestic garage, which would be at odds with agricultural requirement. As such it is recommended that the first floor space and external stair is removed, to reflect the character of a field shelter, which would also assist in reducing the visual scale of the building.

The proposed building would also be publicly visible and situated at a higher level than the road. This, given the scale of the building, would appear quite dominant from the highway. It would also read as a similar height as the main house. As such, the points relating to the scale made above are reinforced. It is also further recommended that the building should be re-orientated so the rear, long wall is adjacent with the western boundary of the house, which would therefore present the shorter elevation to public views.

Lastly, the building is to be situated directly adjacent to the trees and hedge. Policy DP37 of the District Plan states in part that 'development that will damage or lead to the loss of trees, woodland or hedgerows that contribute, either individually or as part of a group, to the visual amenity value or character of an area, and/ or that have landscape, historic or wildlife importance, will not normally be permitted'. The planted boundary and trees are considered to contribute positively to the character of this area and there is concern that the siting of the building so closely to the trees and hedge will result in them being harmed. The building should therefore be sited appropriately away from the hedge and trees and informed by a tree survey and arboricultural assessment to ensure that they will not be harmed. This information will also be required to support any planning application.

01/06/23

It is my informal opinion that overall the proposed changes are positive steps forward, however the final decision will be based on the design shown on the submitted drawings. (more details to this feedback- please reference email/file for complete feedback as unable to fit all on here.)

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff**
- (b) an elected member**
- (c) related to a member of staff**
- (d) related to an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
