Address: 38 Nightingale Lane Burgess Hill

Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I object to this mast proposal as it is overbearing and incongruous with the surrounding area. There is evidence for significant harm to health and the environment from 5G masts which represents an incompatible and unacceptable use of land as per the Town & Country Planning Act 1990. This evidence must be evaluated under the planning rules as a material consideration when

assessing the siting of the mast. The evidence shows this application is unsustainable under the NPPF social sustainability objective. There is no benefit. The application should be refused.

Kind regards
