Subject: Planning Application: DM/26/0840

Dear Hamish,

I am writing to formally object to the above planning application.

I am extremely concerned about the change of usage to this property. I do not believe a Rural Village like Scaynes Hill is a suitable location for this use. I am worried about the impact on the local area and residents.

The increased traffic could cause access and safety issues for cyclists and pedestrians. There are a lot of Children in the area who are regularly outside - I am concerned about the extra danger to them.

I am also concerned about Privacy and Noise issues - I live directly opposite my 2 children - aged 10 & 12.

Furthermore, I am worried about the Community Impact - the Planning Application could change the Neighbourhood dynamics.

I urge the planning committee to consider these points seriously and to reject the application based on the impact it would have on our community.

Thank you for considering my objection.

Yours Sincerely, [REDACTED]
