Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:

My Concerns:
Visual Impact and Amenity: The proposed hub would significantly detract from the character of the area and create visual clutter. Why would you place this in the middle of any town center?

The illuminated advertising screens may cause light nuisance especially at night. many people live in the flats surrounding. What about exposure for people with neurodivergent conditions and people with Epilepsy.

Do we have Data on the possible toxicity that people could get from this monstrosity, which will be without ones consent.

These planning applications should be put to an actual vote from the community, not just at the will of the council.

Kind regards
