Description of Proposed Works

Please describe the proposed works

We are looking to repair the front garden as the current hedging has died from box blight, the brick paving is very uneven and dangerous and the knee high wall beneath the hedging is broken in a number of places. This will involve taking it up and reinstating largely as is. The works will involve: taking the dead hedge out, removing and rebuilding the knee-high, broken wall beneath the hedge, whilst digging a slightly deeper hole to allow new hedging to thrive; Taking up the existing uneven ground brick surface, removing weeds and reinstating with existing bricks; Deepening existing flowerbeds to allow enough soil to allow plants to thrive by creating small borders the height of two bricks.

Biodiversity net gain

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

☒ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

As Kingsleys is a listed building, it is therefore my informal view that planning permission would be required for the proposed works to the wall. For completeness I would advise including the other works described as part of the application.

I have discussed the proposal with our Conservation Officer as well. She has advised that an application for listed building consent would only be required if the wall pre-dates 1948.

Based on the information provided, given the height of the wall and the nature of the works, including materials to match what is currently there, it is informally advised that an application for planning permission would be unlikely to be contentious.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No

- ☐ Yes
- ☒ No

Certificate Of Ownership - Certificate A

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.

** "agricultural holding" has the meaning given by reference to the definition of "agricultural tenant" in section 65(8) of the Act.
