Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Self-build and custom build development

Are you building more than nine houses?:

No

Is the total size over 0.5 hectares?:

No

Do all buildings meet the definition of self-build or custom housebuilding as set out in [section 1\(A1\) of the Self-build and Custom Housebuilding Act 2015](#)?:

Yes

Does your Local Planning Authority require applicants for self-build and custom-build development to evidence their eligibility?:

No

Please justify the reason why biodiversity net gain does not apply:

Site is 1021m2, is self build, and is an extension to an existing home. It has planning consent already.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Foul Sewage

Please state how foul sewage is to be disposed of:

- ☒ Mains sewer
- ☐ Septic tank
- ☐ Package treatment plant
- ☐ Cess pit
- ☐ Other
- ☐ Unknown

Are you proposing to connect to the existing drainage system?

- ☒ Yes
- ☐ No
- ☐ Unknown

If Yes, please include the details of the existing system on the application drawings and state the plan(s)/drawing(s) references

See site plan. The Existing House remains, although some parts are being rebuilt for structural integrity. The house extension will tie in and connect to the plumbing present. No new connections are required.

Do the plans incorporate areas to store and aid the collection of waste?

- ☐ Yes
- ☒ No

Have arrangements been made for the separate storage and collection of recyclable waste?

- ☐ Yes
- ☒ No

Subject: RE: Russets Sandy Lane East Grinstead site visit

Mr Long,

Many thanks for your email from Thursday. Apologies I thought I had updated you previously.

In terms of update, I have discussed the case my senior colleagues and the enforcement team.

We had a similar case a few years ago at 1 Sunnyside, Copthorne Bank.

Using our position from that it is a matter of planning judgement for the LPA, having regard to case law. In terms of case law, we used the legal decision within *Gravesham Borough Council v Secretary of State for the Environment* (1982) P&CR 142, *McCulloch J* in the High Court was required to consider the definition of a dwelling house. He held that a distinctive characteristic of a dwelling house was its ability to afford to those who used it the facilities required for day-to-day private domestic existence. This case law is often referred to in appeal decisions.

In this case it seems to me that what is left of the original house at this site doesn't meet this test and therefore it can at the point of demolition works no longer be classified as a dwelling house.

Therefore, as advised by my enforcement colleague Tanya Leete, given the significant nature of the demolition to harness the works, this has to be seen as a rebuild rather than a normal part of an householder application.

Obviously, it more complex that case it terms of BNG coming in since, but obviously once an application comes in there is no issue with the replacement dwelling.

Kind regards,

Andrew Horrell BA (Hons) MSc Town Planning

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff**
- (b) an elected member**
- (c) related to a member of staff**
- (d) related to an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.

** "agricultural holding" has the meaning given by reference to the definition of “agricultural tenant” in section 65(8) of the Act.
