Subject: DM/24/2910 Planning Application 8 Newstone Cottages, East Street, Turners Hill

We intend to remain neutral to the above planning application. In theory it looks nice and well laid out. However, many owners of Newstone Cottages have lived with the understanding that the cottages were listed at Grade 2 and, as such, were unable to build an attached garage or dwelling to the side. The reason was to ensure that their character was retained, they remained a unique feature of the village, and adjoining properties remained symmetrical. Therefore should this application be approved No.7 and No.8 would no longer meet these requirements and as such, appear to contravene the original listing guidelines.

Should approval be given, we would request that the Planning Department gives the same approval to the other owners of Newstone Cottages should the owners choose to make a similar application.

With regards

[REDACTED]
7 Newstone Cottages, East Street, Turners Hill.
