Reasons for comment:	
Comments:	There have been numerous objections to this proposal for which I whole-heartedly agree with. Rather than listing each and every one of them, I would urge a committee to actually think about what LOCAL residents are saying and listen to those who live this area day in, day out. It's easy to sign off on something that is not going to impact yourself. Please take onboard all the residents views and see that

this will affect the local area in a hugely detrimental way.

It is about time that we are not driven by money and targets - but by common sense and COMMUNITY.

Interesting to see that the new development is as far away from the applicants own property and that the developer is based in a different county. So I doubt it would even support the local trades.

Kind regards
