Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Once again, this development appears to be primarily driven by the desire for profit at the expense of the natural, rural landscape and represents further development by stealth, infilling gradually in the hope that it might initially go unnoticed. As ever, there is insufficient and inadequate infrastructure in any case, and the proposal, if it were to have been permitted, would have placed even further pressure on local residents, already busy roads and amenities, facilities and utilities. I object to this proposal.

Kind regards
