Subject: Planning Application, ref: DM/26/0073

[REDACTED]
Erection of 44 homes near Coombe Hill Road, East Grinstead.

I am writing to protest strongly against the proposal to build 44 new homes.

This is in blatant contravention of several of your policies, including

DP12 - Protection and enhancement of the countryside

DP16 and E61 - Protection of the High Weald as an area of outstanding natural beauty.

To allow this development would open the door to further encroachment by any other parties who might want to link up to this area.

The main road can also be a traffic hazard and the proposed development would only add to the danger, both while building, and subsequently.

The area is also subjected to intense flooding from time to time.

I hope, in the interest of all people who love this amazing countryside that you will not allow this application to progress.

Yours faithfully,
