Subject: Application DM/26/0223

[REDACTED]
We have recently received notification for the felling of a Horse Chestnut.

We are supporters of this application for the following reasons

We live at 22 the Stennings and the tree is leaning into our garden and the branches are getting closer, cutting out more of the light.

The tree is infected and our garden is covered in leaves during the year.

The tree is visible only to people walking on The Timbers because it is surrounded on three sides by houses.

Regards
