Please identify the tree(s) and provide a full and clear specification of the works you want to carry out	4 lime Trees on the northern border of our property (21 Birchen Lane) the trees form the extension of an avenue of lime trees that run the length of Birchen Lane, the other lime trees are not located on properties but at the side of the lane and all have recently had crown reductions after 10 years of no remedial work. We would like to bring our 4 limes in line with the other 20 lime trees on the lane, this would mean a crown reduction of 2-3meters, we have recently suffered some damage to the front fences on our property from larger dead branches coming out the trees as a result of the 2 recent storms, and one of the limes closest to our garage is starting to encroach the garage and leave dead wood on the roof and occasionally on any vehicles left in front of the garage. The limes on our property are identified under TP/15/001 in the local TPO register.
