Hi Katherine

Yes, if the site is under 1000m² I shouldn't have requested that condition, as it won't fall under major development.

Hi Nick,

The agent does not consider the Air Quality Assessment condition necessary, can you let me know your thoughts on this.

Many Thanks

Subject: RE: DM/25/0396 Queen Victoria Hospital Holtye Road, RH19 3DZ

Hi Katherine,

Thanks for your email.

The second condition you have included does not feel relevant to our application, as there is no residential aspect to the proposed development. Can this be removed, please?

The CEMP condition is agreed, we are happy for the CEMP to incorporate section 6.2.2 of our Air Quality Assessment, therefore the final condition you propose can be removed. The CEMP should comprehensively require the conclusions of our environmental reports to be adhered to.

Please feel free to give me a call if you'd like to discuss anything, I am online all day tomorrow.

Many thanks,

Sophie

Subject: RE: DM/25/0396 Queen Victoria Hospital Holtye Road, RH19 3DZ

Dear Sophie,

Thank you for your email.

Please see the attached response from the Ecologist, who raises no objection to the amended wording.

I have also been back through the consultation responses and not that I had missed the pre-commencement conditions requested by Environmental Protection, set out below.

Prior to the commencement of the development, a Construction Environmental Management Plan (CEMP) shall be submitted to and approved in writing by the Local Planning Authority. The Construction Environmental Management Plan shall include amongst other matters details of measures to control noise or vibration affecting nearby residents; artificial illumination; dust control measures; pollution incident control and site contact details in case of complaints. The construction works shall thereafter be carried out at all times in accordance with the approved Construction Environmental Management Plan, unless any variations are otherwise first submitted to and approved in writing by the Local Planning Authority.

Reason: to protect the amenity of local residents and users of the hospital in accordance with policy DP29 of the Mid Sussex District Plan.

Prior to the commencement of any residential part of the development hereby permitted, a scheme of mitigation measures to improve air quality relating to the development shall be submitted to, and approved in writing by, the Local Planning Authority.

The scheme shall be in accordance with, and to a value derived in accordance with, the “Air Quality and Emissions Mitigation Guidance for Sussex” which is current at the time of the application. All works which form part of the approved scheme shall be completed before any part of the development is occupied and shall thereafter be maintained in accordance with the approved details.

Reason: to preserve the amenity of local residents regarding air quality and emissions in accordance with policy DP29 of the Mid Sussex District Plan.

Please let me know if this is acceptable.

Kind Regards

Hi Katherine,

Hope you had a nice weekend.

There was just one condition we wanted to clarify with the County Ecologist before we accept the list of pre-commencement conditions. Please see a letter attached.

Aside from the matter discussed in the attached letter, I can confirm we are happy with your draft list of conditions and that the decision can be issued this week.

Many thanks,

Sophie

Hi Sophie,

Thank you for your email.

The Council does not provide a draft list of all the conditions as final determination of the application is down to management. Pre-commencement conditions are only provided due to the requirement for agreement from yourselves.

Can you confirm if the list of pre-commencement conditions are acceptable?

Subject: RE: DM/25/0396 Queen Victoria Hospital Holtye Road, RH19 3DZ

Dear Sophie,

Thank you for your email.

Please see the below proposed pre-commencement conditions, please let me know if these are acceptable.

- The development hereby permitted shall not commence unless and until details of the proposed foul and surface water drainage and means of disposal have been submitted to and approved in writing by the local planning authority. No building shall be occupied until all the approved drainage works have been carried out in accordance with the approved details. The details shall include a timetable for its implementation and a management and maintenance plan for the lifetime of the development which shall include arrangements for adoption by any public authority or statutory undertaker and any other arrangements to secure the operation of the scheme throughout its lifetime. Maintenance and management during the lifetime of the development should be in accordance with the approved details.

Reason: To ensure that the proposal is satisfactorily drained and to accord with Policy DP41 of the Mid Sussex District Plan 2014 – 2031.

- *Prior to commencement of the approved works a construction environmental management plan (CEMP: Biodiversity) shall be submitted to and approved in writing by the local planning authority.*

The CEMP (Biodiversity) shall include the following.

- Risk assessment of potentially damaging construction activities.
- Identification of “biodiversity protection zones”.
- *Practical measures (both physical measures and sensitive working practices) to avoid or reduce impacts during construction (may be provided as a set of method statements).*
- The location and timing of sensitive works to avoid harm to biodiversity features.
- *The times during construction when specialist ecologists need to be present on site to oversee works.*
- Responsible persons and lines of communication.
- *The role and responsibilities on site of an ecological clerk of works (ECoW) or similarly competent person.*
- Use of protective fences, exclusion barriers and warning signs.
- *Containment, control and removal of any Invasive non-native species present on site*

The approved CEMP shall be adhered to and implemented throughout the construction period strictly in accordance with the approved details, unless otherwise agreed in writing by the local planning authority

Reason: To conserve protected and Priority species and allow the LPA to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), the Wildlife & Countryside Act 1981 (as amended) and s40 of the NERC Act 2006 (as amended).

- No development shall commence unless and until the following information has been submitted to and approved by the Local Planning Authority.
 - Details of curtain wall glazing, roof level balustrade, retaining walls with stone cladding, screen and fencing to the plant area, downpipes with boxing, spandrel panels, metal doors with louvers above, pergolas, canopies and external railings.
 - 1:50 scale plans, elevations and sections of the entrance zone to the building
 - 1:20 sections and front elevations of the typical features, shown in context, including windows and doors

The works shall be carried out in accordance with the approved details unless otherwise agreed with the Local Planning Authority in writing.

Reason: To enable the Local Planning Authority to control the development in detail in the interests of amenity by endeavouring to achieve a building of visual quality and to accord with Policy DP26 of the Mid Sussex District Plan 2014 - 2031.

- The development hereby permitted shall not commence unless and until full details of both hard and soft landscaping, to include details of proposed replacement trees and boundary treatments, has been submitted to and approved in writing by the Local Planning Authority. The works shall be carried out in accordance with the approved details unless otherwise agreed with the Local Planning Authority. Any trees or plants which, within a period of five years from the completion of development, die, are removed or become seriously damaged or diseased, shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority gives written consent to any variation.

Reason: In the interests of visual amenity and of the environment of the development and to accord with Policies DP26 and DP37 of the Mid Sussex District Plan.

- The development hereby permitted shall not commence unless and until samples and details of materials and finishes to be used for external walls and roofs of the proposed building with a have been submitted to and approved by the Local Planning Authority. The works shall then be carried out in accordance with the approved details unless otherwise agreed with the Local Planning Authority.

Reason: To enable the Local Planning Authority to control the development in detail in the interests of amenity by endeavouring to achieve a building of visual quality and to accord with policy DP26 of the Mid Sussex District Plan.

Hi Katherine,

Thanks for sending across our comments to the Tree Officer, great to see she has come back again already confirming.

As we are no longer awaiting any consultee comments, would it be possible for us to review a draft list of planning conditions, please?

Please let me know if there is anything else you require from me in order to determine the planning application.

Kind regards,

Sophie

Hi Katherine,

I will follow up with our landscape consultant and be in touch soon.

Could you please confirm which consultee responses we are still awaiting?

From the Neighbour Notification List on the planning register, it looks like Flood Risk and Drainage are the only outstanding consultee, although we have received Southern Water's in addition to the list.

Many thanks,

Sophie

To: Katherine Williams <Katherine.Williams@midsussex.gov.uk>
Subject: DM/25/0396 Queen Victoria Hospital Holtye Road, RH19 3DZ

Dear Katherine,

I have reviewed the Arboricultural Report for this application.

Whilst I note the loss of 10 trees, some of which are category B trees, which would be a constraint to development under normal circumstances, I am aware that this is the only suitable location for this proposal. Therefore, I do not object provided that the trees are replaced with suitable, native species.

I reviewed the Landscaping Plan for this proposal and would prefer to see native trees to replace those lost to facilitate the development. Please could you request that trees are replaced with native species, and could we have details of the replacement species?

This should adequately mitigate the loss of the category B trees.

Many thanks.

Emma
