I object most strongly to this application. I have an access road to a 100 house development on my northern boundary. The developers want to construct an access road along my southern boundary for this site,. With the increased traffic from the site moving along the front of my property I shall be living on a traffic island. We experience water runoff from the field every time we have heavy rain and all through the winter our gardens are flooded. I feel this will only get worse with houses being built where existing water flow paths cross this site. The increased noise, traffic and disturbance by construction vehicles and future vehicles will materially harm the peaceful enjoyment of mine and nearby homes. This situation is damaging my physical and mental health and I urge you to turn down this application.
