Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	The original application was for a whole new reshaped roof with 3 dormer windows. We opposed this due to mass infringement of our privacy. The plans got amended to keeping the original roof but 2 dormer windows were still kept. These still infringe our privacy as they look into the whole of our front garden and most of our back garden. More importantly they look straight into our kitchen window. Now yet another window is planned to be added to the rear roof. This roof light will give an even better view of our rear garden and

again straight into our kitchen window giving us even less privacy. One way round this which would let light in and stop any more infringement of our privacy would be to have the window opaque and non opening. The front velux window is still opening for ventilation.

Kind regards
