

Witness Statement

To whom it may concern,

[REDACTED] 27 The Martins, confirm that i saw/heard building work taking place in Clare Horle's garden at No 28 The Martins, RH104XU including the brick retaining wall. From what i remember the work was done around the early summer of 2021. I remember working from home during this time post pandemic and having my back doors open as it was hot weather. I could hear the work being carried out and conversations about it from Clare's garden. I remember the workman playing music in the garden as well as he worked. I do not recall the exact dates but this was several years before the pergola was added in Feb 2025.

This statement is true to the best of my knowledge.
