Dear Joanne,

Thank you for the update, providing the dry riser inlet is in line of sight for the pump operator, within 18m of the appliance and all areas within all apartments are within 45m of either the fire appliance or dry riser outlet the consultation enquiry has been suitably answered and no further action required.

Regards
Ian

****EXTERNAL****

Dear Ian,

Further to your comments of Tuesday concerning the above application, please find below the response from the agent confirming the dry riser connection point will be seen by the pump operator when connected.

In light of this, have you any further comments or suggested conditions for the application?

Please can I have a response in a clean email.

I trust this assists.

Kind regards

Joanne

Hi Joanne,

I can confirm that the dry riser connection point will be seen by the pump operator when connected - the dry riser will be 12.2m from the rear of the fire appliance and in line of site of the pump operator.

Hi Warren,

I refer to the above application under consideration.

Please find attached the comments from West Sussex Fire and Rescue. Please can you clarify whether the dry riser connection point can be seen by the pump operator when connected.

I look forward to hearing from you in respect of this.

Kind regards

Joanne
