Subject: Fox Hole Farm proposed development.

[REDACTED]

The Planning Office.

I am just writing to object to the proposal to build 200 houses on Foxhole Farm.

This demographically would almost double the size of Bolney in one stroke. Having a very basic infer structure ie, no shops, and a very basic public transport service available at present, would make the proposed development totally unsustainable.

The other main issue is the proposed access the development, and the notoriously dangerous A272. How seriously can potentially 400 cars, plus delivery vans (no shops) safely access, and leave the proposed development.

Yours faithfully
