

Hi Stefan,

I attach a copy of the relevant part of our local list which states that a tree report is required for every application within 15m of a tree.

In this case, I have not requested a full tree report, simply an Arboricultural Method Statement, because there is some existing hardstanding in place.

This should identify the trees and their RPAs, provide details of any tree protection and details of construction/foundations within RPAs and how any existing materials would be removed.

Thanks,

Irene
