Further to your request I am resubmitting my opposition to this planning application.
My address is as follows
1 Keymer Place
Keymer Road
Burgess Hill
RH15 0AN

I am writing to strongly object to this application submitted by MSDC for the installation of a 25 metre high 5G tower at Ockley Park, Ockley Hill, Ockley Lane, Hassocks, West Sussex on behalf of Cellnex Connectivity Solutions.
Recently approved planning applications on this site have already blighted and permanently ruined the landscape and this will only make matters worse still.
The pollinators and other wildlife will be detrimentally affected also and this installation is completely unnecessary

Regards
