Reasons for comment:	
Comments:	I'm objecting about this mast for several reasons. The mast is extremely close to my house and will be above the treeline. It will be an absolute eyesore looking out from my garden. The noise that will come from the fans will be an awful noise coming across. The radiation from the mast will affect my insulin pump, which will also greatly affect my health. We have a wonderful display of

wildlife in this area. The mast will obviously upset their habitat.
Under no circumstances is this mast wanted in this position.

Kind regards
