Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Risk to health of residents, schools, wildlife from 5G mast. Access to site from busy road close to railway bridge would cause chaos during installation. There is a pedestrian crossing and entrance to station nearby on the road which is only one of two roads to get across from one side to the other of Burgess Hill. There are

enough problems in the area with the roads. The ground is used by dog walkers and no doubt has wildlife in residence. It is a little peaceful place for the area.

Should there be an accident on the railway or to the mast both would be at risk.

Please do not pass this planning application.

If they are necessary(which is doubtful), put them out of the way of people's lives in unpopulated areas of the country.

Kind regards
