Subject: DM/26/0412. Barrington House, Lindfield.

Dear Rachel,

I have reviewed the Arboricultural Impact Assessment (AIA) and Tree Constraint Plans (TCP), for this proposal.

Whilst I note that the site plans have considered the impact of the proposal on the trees, and some generic methodologies have been set out in the AIA, further, more detailed information is required to ensure that the RPA incursions are suitably managed. Whilst these incursions are within the recommended allowances set out in BS5837:2012 - Trees in relations to design, demolition, and construction- Recommendations, site specific details of the method to be used within the RPA's is required.

Please could you request a site-specific Arboricultural Method Statement and Tree Protection Plan for this proposal? This could be secured by pre commencement condition.

Kind regards

Emma
