To whom it may concern,

I am writing to object to the latest proposal for additional housing in College Lane relating to the above reference. College Lane is very narrow in most places and difficult for cars to pass if there is approaching traffic. It's not designed to handle more traffic. It will only increase congestion. In addition, as there are no pavements, residents will be putting their lives at risk walking along towards Wickham Hill to reach public transport.

It is important to preserve the lines of sight to the open countryside. Planning permission has previously been refused for similar proposals, so to be consistent this proposal should be declined.

There will be a greater pressure on services in particular the supply of water. We already know that SE Water are struggling to maintain the supply and this could lead to more burst pipes in the area.

Please consider these key objection points carefully when reviewing the application.

Regards

[REDACTED]
20 Lynton Close, Hurstpierpoint
