Dear Sir/Madam,

The "rewilding" "light touch management regime" will not enrich the existing habitat but merely replace an already bio-diverse natural environment with another more alien one. There are several references in the documentation to learning from the re-wilding at Knepp Estate, this is completely at odds with the objection submitted already by Sir Charles Burrell, owner of the Knepp Castle Estate. He makes it clear that the documentation is full of errors and the site is too small to be viable.
