

Application reference: DM/24/2985

Site Address: 8 Quarry Hill, Haywards Heath

Site Visit Date: 01/04/25

North – Existing rear elevation with the appearance of a single storey due to the sloping up of the land. The roof has previously had a rooflight installed.

South – Existing principal elevation featuring a flat roofed front porch area and side flat roofed garage. The dwelling utilises tile hanging at first floor level and is constructed of a brick exterior.

East – Neighbouring dwelling positioned at a closer set back from the roadside and therefore in front of the application dwellings principal elevation in terms of the building line. There are some side (east) elevation windows which face back from the neighbouring dwelling towards the application sites front garden amenity space.

West – Grass verge to the west of the site which follows the curve in the road. There is a single storey flat roofed garage to the west at No.6.

Streetscene – Traditional estate style dwellings set at an elevated position with regard to the roadside on the southern side. Tile hanging featured regularly featured at first floor level to add visual interest.
