MID SUSSEX DISTRICT COUNCIL

DM/25/0051

**Flat 4, Abigail House, 53 - 55 Hazelgrove Road, Haywards Heath, West Sussex, RH16 3UR,
Replacement of old rotten windows with new double glazed UPVC windows.
Mr Keith Mac Donald**

SUMMARY OF REPRESENTATIONS

None received.

TOWN COUNCIL OBSERVATIONS

No comment.

INTRODUCTION

The application seeks planning permission to replace existing timber windows with uPVC double glazed windows.

RELEVANT PLANNING HISTORY

No relevant history.

SITE AND SURROUNDINGS

The application site is a three storey detached block of flats located on west side of Hazelgrove Road, within the built-up area boundary of Haywards Heath.

The building has a pitched roof and is constructed from brick with clay roof tiles and white wooden fenestration. The application property is located on the 1st floor in the northwest corner of the building. The site has off street parking to the front and rear of the building with access at the rear off St Josephs Way.

The wider street scene consists of a mixture of dwelling types which are characterised by a variety of external materials as well as Marks and Spencer's and the Orchard Centre to the west.

APPLICATION DETAILS

The application seeks planning permission to replace the existing wooden windows with white double glazed uPVC Windows of the same size. The windows to be replaced are 2 no windows facing west serving the lounge, a north facing window serving the kitchen and a north facing window serving the bedroom. The replacement windows will be of a similar design to the wooden windows to be replaced.

Planning permission is required as the property is a flat and therefore does not benefit from permitted development rights.

LEGAL FRAMEWORK AND LIST OF POLICIES

Planning legislation holds that the determination of a planning application shall be made in accordance with the Development Plan unless material considerations indicate otherwise.

Specifically Section 70 (2) of the Town and Country Planning Act 1990 states:

'In dealing with such an application the authority shall have regard to:

- a) *The provisions of the development plan, so far as material to application,*
- b) *Any local finance considerations, so far as material to the application, and*
- c) *Any other material considerations.'*

Section 38(6) Planning and Compulsory Purchase Act 2004 provides:

'If regard is to be had to the development plan for the purposes of any determination to be made under the planning Acts the determination must be made in accordance with the plan unless material considerations indicate otherwise.'

The requirement to determine applications "in accordance with the plan" does not mean applications must comply with each and every policy, but is to be approached on the basis of the plan taken as a whole. This reflects the fact, acknowledged by the Courts, that development plans can have broad statements of policy, many of which may be mutually irreconcilable so that in a particular case one must give way to another.

Under section 38(5) of the Planning and Compulsory Purchase Act 2004 if a policy contained in a development plan for an area conflicts with another policy in the development plan, the conflict must be resolved in favour of the policy which is contained in the last document to be adopted, approved or published.

Using this as the starting point the development plan for this part of Mid Sussex consists of the District Plan, Site Allocations Development Plan Document (DPD) and Haywards Heath Neighbourhood Plan.

National policy (which is contained in the National Planning Policy Framework and National Planning Policy Guidance) does not form part of the development plan, but is an important material consideration.

Mid Sussex District Plan

The District Plan was adopted at Full Council on 28th March 2018.

Relevant policies:

DP26 - Character and Design

Site Allocations DPD

The SADPD was adopted on 29th June 2022. It allocates sufficient housing and employment land to meet identified needs to 2031.

There are no relevant policies.

Haywards Heath Neighbourhood Plan (made 2016)

Relevant policies:

E9 - Design

Other Material Considerations

Mid Sussex District Plan 2021 - 2039 - Submission Draft (Regulation 19)

The District Council is reviewing and updating the District Plan. Upon adoption, the new District Plan 2021 - 2039 will replace the current District Plan 2014-2031 and its policies will have full weight. In accordance with the NPPF, Local Planning Authorities may give weight to relevant policies of the emerging plan according to the stage of preparation; the extent to which there are unresolved objections to the relevant policies; and the degree of consistency of the relevant policies in the emerging plan to the NPPF. The draft District Plan 2021-2039 (Regulation 19) is currently at Examination and the stage 1 hearings were concluded on the 31st October 2024. There are unresolved objections to some of the

Policies in the draft District Plan and as such, only minimal weight can be given to the Plan and this planning application has been assessed against the policies of the adopted District Plan.

Relevant policies:

DPS1 - Climate Change

DPS2 - Sustainable Design and Construction

DPB1 - Character and Design

Mid Sussex Design Guide Supplementary Planning Document (SPD)

The Council has adopted a 'Mid Sussex Design Guide' SPD that aims to help deliver high quality development across the district that responds appropriately to its context and is inclusive and sustainable. The Design Guide was adopted by Council on 4th November 2020 as an SPD for use in the consideration and determination of planning applications. The SPD is a material consideration in the determination of planning applications.

National Planning Policy Framework (NPPF) (December 2024)

The NPPF sets out the government's policy in order to ensure that the planning system contributes to the achievement of sustainable development. Paragraph 8 sets out the three objectives to sustainable development, such that the planning system needs to perform an economic objective, a social objective and an environmental objective.

Paragraph 12 of the NPPF states; *'The presumption in favour of sustainable development does not change the statutory status of the development plan as the starting point for decision-making. Where a planning application conflicts with an up-to-date development plan (including any neighbourhood plans that form part of the development plan), permission should not usually be granted. Local planning authorities may take decisions that depart from an up-to-date development plan, but only if material considerations in a particular case indicate that the plan should not be followed.'*

Paragraph 39 of the NPPF states; *'Local planning authorities should approach decisions on proposed development in a positive and creative way. They should use the full range of planning tools available, including brownfield registers and permission in principle, and work proactively with applicants to secure developments that will improve the economic, social and environmental conditions of the area. Decision-makers at every level should seek to approve applications for sustainable development where possible.'*

With specific reference to decision-taking paragraph 48 states that planning decisions must be taken in accordance with the development plan unless material considerations indicate otherwise.

National Planning Policy Guidance

ASSESSMENT

It is considered that the main issues that need to be considered in the determination of this application are as follows;

- Design and Character
- Impact on neighbouring properties
- Biodiversity Net Gain

Design and Character

Policy DP26 of the Mid Sussex District Plan states:

'All development and surrounding spaces, including alterations and extensions to existing buildings and replacement dwellings, will be well designed and reflect the distinctive character of the towns and villages while being sensitive to the countryside. All applicants will be required to demonstrate that development:

- *is of high quality design and layout and includes appropriate landscaping and greenspace;*
- *contributes positively to, and clearly defines, public and private realms and should normally be designed with active building frontages facing streets and public open spaces to animate and provide natural surveillance;*
- *creates a sense of place while addressing the character and scale of the surrounding buildings and landscape;*
- *protects open spaces, trees and gardens that contribute to the character of the area;*
- *protects valued townscapes and the separate identity and character of towns and villages;*
- *does not cause significant harm to the amenities of existing nearby residents and future occupants of new dwellings, including taking account of the impact on privacy, outlook, daylight and sunlight, and noise, air and light pollution (see Policy DP27);*
- *creates a pedestrian-friendly layout that is safe, well connected, legible and accessible;*
- *incorporates well integrated parking that does not dominate the street environment, particularly where high density housing is proposed;*
- *positively addresses sustainability considerations in the layout and the building design;*
- *take the opportunity to encourage community interaction by creating layouts with a strong neighbourhood focus/centre; larger (300+ unit) schemes will also normally be expected to incorporate a mixed use element;*
- *optimises the potential of the site to accommodate development.'*

Policy E9 of the Haywards Heath Neighbourhood Plan states:

'Developers must demonstrate how their proposal will protect and reinforce the local character within the locality of the site. This will include having regard to the following design elements:

- o height, scale, spacing, layout, orientation, design and materials of buildings,*
- o the scale, design and materials of the development (highways, footways, open space and landscape), and is sympathetic to the setting of any heritage asset,*
- o respects the natural contours of a site and protects and sensitively incorporates natural features such as trees, hedges and ponds within the site,*
- o creates safe, accessible and well-connected environments that meet the needs of users,*
- o Will not result in unacceptable levels of light, noise, air or water pollution,*
- o Makes best use of the site to accommodate development,*
- o Car parking is designed and located so that it fits in with the character of the proposed development.*

Proposals affecting a listed building, conservation area, building of local interest or public park of historic interest or their setting should preserve or enhance their special interest and/or distinctive character.'

The proposed alterations are small in scale replacing existing windows. The alterations would be visible from the street scene but are of a similar design to the existing windows. Flat 6 was permitted to change the wooden windows to uPVC in application DM/20/0226.

The proposed works would not have a harmful impact on the character of the of the area and therefore comply with policy DP26 of the District Plan and E9 of the Haywards Heath Neighbourhood Pan.

Impact on neighbouring properties

Policy DP26 of the District Plan relates to amenity and states in part that development proposals should 'not cause significant harm to the amenities of existing nearby residents and future occupants of new dwellings, including taking account of the impact on privacy, outlook, daylight and sunlight, and noise, air and light pollution; (see Policy DP29);'

The proposed alterations are to replace existing windows and therefore will not create any additional overlooking. The proposal therefore accords with policy DP26 of the District Plan.

Biodiversity Net Gain

Biodiversity net gain is required under a statutory framework introduced by Schedule 7A of the Town and Country Planning Act 1990. Under the statutory framework for biodiversity net gain this application comprises development below the de-minimis threshold meaning that this development is exempt from providing biodiversity net gain.

PLANNING BALANCE AND CONCLUSION

In conclusion, the proposal is considered to be appropriate in terms of design to the property and locality, would not cause significant harm the amenities of neighbouring properties. Therefore, the proposal complies with Mid Sussex District Plan policy DP26, policy E9 of the Haywards Heath Neighbourhood Plan and with the relevant provisions of the NPPF. The application therefore accords with the Development Plan and is considered acceptable.
