Good afternoon,

I would just like to put in a few words in support of the above development. This development would give an amazing opportunity for families with disabilities as well as the wider community. The plans for a truly inclusive hub would enhance many lives in Mid Sussex. extending Kangaroos' current reach and supporting more families in the local community.

Over the last thirty years Kangaroos has enhanced the lives of hundreds of individuals with disabilities and aspires to bring joy to many more over the coming years - a dedicated hub would make this a reality!

Kind regards
