

# Biodiversity Net Gain Statement

---

Submit this form with your planning application to show how your development is likely to deliver biodiversity net gain

Please ensure you refer to the [Apply for Planning Permission](#) webpage to download the latest version of this form.

---

## Introduction

Biodiversity net gain (BNG) will deliver measurable improvements for biodiversity by enhancing or creating new habitats in association with development.

Biodiversity net gain is mandatory and all developments will have to deliver a minimum of 10% BNG. [Certain developments are exempt from BNG.](#)

You will need to [submit information on BNG](#) with the planning application and, if granted planning permission, a Biodiversity Gain Plan showing how BNG will be achieved must be approved by the Council prior to commencement of development.

## Who should complete this form

All applicants for planning permission where BNG applies should complete this form and include it when you submit your planning application. Applicants proposing development that is exempt from BNG do not need to complete this form.

This form provides the Council with initial information on the delivery of BNG. This will help to identify when a s106 planning obligation may be required to secure the BNG for 30 years and it will help us monitor the likely delivery and implementation of BNG.

## 1. Site location

### Address

Badgers Brook, London Road, Bolney, RH17 5PY

### Description of the proposed development

Constrution of 6 detached dwellings with associated access road parking and garage

## 2. Applicant details

### Applicant name

Martin Betts

### Company name

### Address

North Lodge, Capel Road, Rusper RH12 4PZ

### E-mail address

martin@neon-finance.co.uk

### Telephone number

07507668049

## 3. Agent details

### Agent name

Josie Hodges

### Company name

DPS Sussex Limited

### Address

josie@dpssussex.co.uk

### E-mail address

josie@dpssussex.co.uk

**Telephone number**

#### 4. Biodiversity net gain delivery

##### **How do you intend to deliver the minimum 10% biodiversity net gain?**

The Council encourages higher levels of BNG (more than the minimum 10%) and developments should seek to maximise opportunities to deliver meaningful BNG.

Tick all that apply.

☒

On-site

☐

Off-site

☐

Statutory biodiversity credits

#### 5. On-site biodiversity net gain delivery

##### **Does your application include any on-site habitat enhancements and/or creation that could be considered ‘significant’?**

Significant enhancements are areas of habitat enhancement which contribute significantly to the proposed development’s BNG, relative to the biodiversity value before development.

Guidance on what may be a significant on-site enhancement can be found at:

<https://www.gov.uk/guidance/make-on-site-biodiversity-gains-as-a-developer#significant-on-site-enhancements>

☐

Yes

☒

No

**Please explain why you have selected your answer.**

The site is relatively large in comparison to the development and whilst we have identified a scheme to make a meaningful and acceptable enhancement (in excess of 10%) satisfying planning requirements the enhancements will not be defined as significant as per the .gov guidance.

#### 6. Off-site biodiversity net gain delivery

**Have you identified how you will meet any off-site provision for biodiversity net gain?**

☐

Yes

☒

No

**Which option best describes your off-site provision for biodiversity net gain?**

- ☒ Applicant-owned land (i.e. land that you own or control elsewhere)
- ☐ Arrangement with another landowner for using their land to meet your off-site BNG requirements
- ☐ Purchase of biodiversity units from a third party habitat bank

**Which option best describes the location of your off-site provision for biodiversity net gain?**

Tick all that apply.

- ☐ Adjacent to the development site
- ☐ Within Mid Sussex District
- ☐ Outside Mid Sussex District in another local planning authority area  
If outside Mid Sussex District, please name the local planning authority area or if unknown, please name the nearest town or village.

- ☐ Uncertain
