# Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

---

## When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

The site is relatively large in comparison to the development and whilst we have identified a scheme to make a meaningful and acceptable enhancement (in excess of 10%) satisfying planning requirements

### 4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on-site, including to avoid or minimise the impact on irreplaceable habitats.

We have carried out Tree surveys and badger surveys and have reports and mitigation measures to protect all onsite wildlife and trees

### 4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

Yes

No

#### 4.6 How will you achieve the target net gain percentage?
