Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I am writing to formally oppose the proposed 5G mast planned within our residential area. Why has this project been placed in the middle of housing developments, why not consider a more remote location?. The decision to situate this installation where people live, is both deeply concern and in my view, irresponsible. What makes this even more troubling is the inclusion of a 5G facts

leaflet with the planning notice highlighting the health risks. It's ironic and alarming that such risks are acknowledged, yet the installation is still being considered so closed to where people spend their daily lives.

I urge you to reconsider this plan and explore safer , more appropriate alternatives.

Regards

Maria

Kind regards
