Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	An ugly, intrusive, overbearing alien feature in the landscape will dominate the landscape in all directions, but in particular, the housing estate to the East of the proposed location, being just 78 metres from the nearest property is totally unacceptable. All homes and flats in the area will be affected by this mast as the "Substantiated adverse health affects" as referred to in the ICNIRP Guidelines, appear to be more widely known nowadays

by the public taking the time to research findings INDEPENDENT of the industry itself.

The impact of this proposal on the health and well being of the residents and visitors to the area is a material planning consideration, which includes fear and anxiety of harm.

Everyone is at risk of this RF Radiation and this is a public safety issue, the Council and Councillors are under a duty of care, not to enable harm to be caused to the public.

Kind regards
