Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	With regard to the updated plan dated 09.06.26:- The height of the mast/antenna/aerial shown on the updated plan is ridiculously high, intrusive and not in keeping with surrounding properties and gardens. There is no mention of the dimensions of the proposed antenna/aerial on the updated plan. The antenna/aerial currently in place is visually over half the width of the bungalow. It is irrelevant whether the mast/antenna/aerial are retracted or

extended as the interference with both mobile phones is unacceptable at all times of the day, one phone required for working remotely from home and the other for personal use.

I reiterate my objections contained in my objection letter of 01.06.26.

Kind regards
