[REDACTED]  
I live at number 114 Junction Road with my wife [REDACTED]

Our concern is that people working on site will park on busy Junction Road near to the Cants Lane Junction and Adur Road junction. There are already problems with people parking opposite driveways, making emerging on to very busy road hazardous. This is not illegal (perhaps it should be) but extremely selfish. We would ask the highways authority to insist that onsite parking is provided by the applicant and a temporary all-day ban put on Junction Road within 200 yards each side of the site. Otherwise with so much heavy traffic serving the site there will be chaos.

We have no objection in principal to building on the site, with his proviso.

Thank you for your attention.
