Attachments: Mail Attachment.eml

Hi Joanne,

I can confirm that the dry riser connection point will be seen by the pump operator when connected - the dry riser will be 12.2m from the rear of the fire appliance and in line of site of the pump operator.

Regards, Warren @

Hi Warren,

I refer to the above application under consideration.

Please find attached the comments from West Sussex Fire and Rescue. Please can you clarify whether the dry riser connection point can be seen by the pump operator when connected.

I look forward to hearing from you in respect of this.

Kind regards

Joanne
