Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Objection based on infrastructure, biodiversity, and increased traffic. As a commitment to the community and respecting the desire to increase biodiversity I request consideration to the following proposal; Create a water meadow/dog walking area in the suggested fields.

Introducing new species, plants and trees which is open to the whole community.

At the top of the site build a single story dwelling for local scouts, cubs and beavers with secure outbuildings replacing the loss of Clair Hall with parking.

Community space which could be booked for other day time activities.

Purpose of the space is to respect the wildlife and the natural surroundings mitigating neighbourhood concerns and demonstrating a clear desire to invest in our community and facilities the local council offers.

Kind regards
