Dear Stefan

I am writing in relation to the recent planning application for McDonald's extending their operating hours.

I have made numerous complaints about McDonald's and the endless nuisance and noise issues they create. There are already significant anti social behaviours issues with visitors to the site revving engines, racing, beeping horns during all hours. As well as deliveries and waste disposal trucks attending at unacceptable and unsocial hours with no regard for the residents that live directly behind. Banging and crashing from deliveries as early as 7am on a Sunday is not reasonable. By extending the hours this will only extend the time the individuals who do not respect the local residents until even later hours. There is no management of such anti social behaviour with McDonald's just claiming that those individuals park in the council car park and not McDonald's car park which is just a weak excuse to avoid taking responsibility. This needs to be managed appropriately and fairly.

I strongly object to this extension unless there is clear management of noise and nuisance or closure of the council car park after 10pm.

I assume my numerous complaints will be on file somewhere but I am happy to share them with you.

To stress the extent of my concern, I am in the process of putting my house on the market as I am fed up with the endless nuisance and lack of support from the council!

Kind regards
