Dear Catherine,

I'm writing to you re the recent planning application for 12 Western Road, Hurstpierpoint – DM/25/1506

I am not against extending the property but I'm concerned that the extensive rear extension it is going to impact light into my garden especially in the winter months. The height and depth of the extension into the garden also concerns me that it will be overlooked.

Such a large extension seems incongruous to the rest of the cottages to the north in the neighbourhood and will be imposing to surrounding homes. The long gardens support a lot of nature which potential light pollution from the windows may affect. If the proposal goes ahead would there be any intention of supporting wildlife, such as swift bricks?

I hope these points will be taken into consideration.

Regards,

[REDACTED]

8 Western Road, Hurstpierpoint, BN6 9TA
