Dear Rachel,

I have reviewed the Arboricultural Impact Assessment (AIA), and Tree Protection Plan (TPP), for this proposal and find that the main arboricultural features of the site will be retained and adequately protected. I note that the Ancient woodland borders the site but that the proposal will not impact trees therein. Further comments may be required, but that is a matter for Ecology.

Further, the loss of two category C trees is not a constraint to development.

I have no objection.

Please condition adherence to the AIA and TPP.

Kind regards

Emma
